W O R K • H I S T O R Y

DIGITAL HOUSE
JAN 2022 – Current
"EdTech Organization"
Responsible for educating professionals for **Globant** and **Mercado Libre**, with a strong understanding of the latest technologies and development stacks.
Roles:
- Instructor of React JS.
    - Not only am I in charge of carrying out with lesson plans, but I am also a member of the team in charge of proposing changes to the curriculum in order for it to be synced with the latest conventions of the use of React. On the other hand, I provide my students with constant feedback on their **coding work**, and **react apps**.

PUBLICIS GLOBAL DELIVERY
MAY 2021 – APRIL 2022
"Media Marketing Agency"
PGD provides unified expertise across all its services which are media, production, commerce, content, Data and technology to be the best creative collaborator for its clients' trade transformation.
Roles:
    Software Developer:
- Heineken ~
    Creating an entire portfolio that included:
    - Responsive Banners with **react** and **styled-components**.
    - landing pages for events with **react** and **sass**.
    - Promotional **E-mail** with responsive **HTML**.

- Widemesh
    Web App ~
    My job was to provide a smooth experience for clients who wanted to contract client's services through the website, and those who needed extra actions in the services hired, by designing and maintaining an intuitive, and scalable UI/UX using technologies such as **react, redux, typescript,** and **tailwind.**

FREELANCER
February 2019 – November 2020
Roles:
- **UI/UX Designer**:
    Despite the lack of tools and experience, I was the person in charge of establishing the bridge between the team and the clients. I would collect the clients' ideas, and then, come up with a proposal to suit the clients' needs. Once the green light was given, it'd inform the team and distribute responsibilities.
- **Frontend Dev.**:
    Given we were a small team, I was also a part of the group of developers, and so, I was also given a task.

Some projects:
